

GERMANY -My dream destination

I am learning about Germany in school and it is very interesting. It has such a strange and engaging history ranging from scientific and philosophical innovation to conquest, world war and mass ideological subjugation, and then again to commercial and diplomatic success.

I have a particular interest in the history of the Nazi period between 1933 and 1945 - <http://www.historylearningsite.co.uk/Nazi%20Germany.htm> - as both of my grandfathers fought in World War 2 and my mother is of German descent.

I think Berlin would be the best place to go to investigate this period because most of the country's governmental and administrative institutions are based there, so they will have many records on the Nazi regime.
